The absorption by large systems of various independent lines, with which the M. R. & I. formerly interchanged traffic, tends to diminish business, and the policy mus forced algon the company of occupying the territory with extensions of our own lines has been authorately justified.

The population of indian Territory is estimated to be not less than 59,00, and an equal number in Oklahoma. This almost imprecedented sattlement of the new territory is the consequence of the extraordinary ferthity of that region, and every indication points to a continuance of the rate of increase of the Oklahoma extension construction H3 miles have already been laid, and it is expected that the line will be completed by the end of the calendar year.

"Notwithstanding the large additions made each year to motive power and cars the equipment barely keeps pare with the increase of the traffic requirements. A CURABLE DISEASE.

Chronic Catarrh Is Pronounced Curable by Dr. Hartman.

Curable by Dr. Hartman.

There are almost countless numbers of remedies said to cure chronic catarrh. The most of these are of no use whatever and worse than useless, some are actually harmful. A few are successful in a small number, of cases—those which are very slight and easily curable—cases which might perhape get well by simply taking care not to catch cold again.

But of all the vast multitudes of medicines it cannot be said that there are more than two or three which are actually specifies, and without doubt the most reliable is Peruna. It always cures when faithfully and conclentiously used. It not only cures catarrh of the head and throat, bronchial tubes, lungs, but catarrh of the stomach, liver, kidneys, bowels, and, in fact, any of the organs of the human body.

A book of 64 instructively illustrated pages on catarrh and catarrhal diseases will be sent free to any address by The Peruna Medicine Co., Columbus, Ohio.

EVIDENCE TENDS TO SHOW THAT DUNCAN IS INNOCENTA

Police Investigate Report That Maria Chiron Was Assaulted by Watchman and Not Robbed.

Captain Joyce of the Eighth District yesterday investigated the report that Maris Chiron, who was found near the Grand Hotel, at Grand avenue and Olive street, early Sunday morning, had been beaten by a private watchman, and was not the victim of a highwayman.

Private Watchman William Mohn who patrols the district near the Grand Hotel. declared that he had had no trouble with any person, and said that he knew nothing of the Chiron case. James Y. Duncan is under arrest

charged with highway robbery. It was charged Saturday that Duncan beat Chiron and took a small painting from him. Duncan denies the charge, and a witness has been found who states that Chiron gave the picture to Duncan.

It appears that Duncan and Chiron were in a saloon drinking together. Chiron amused himself by punching holes in the picture which he carried. Duncan, according to the bartender, pleaded with Chiron not to destroy the painting, whereupon Chiron gave the picture to him. When Duncan was arrested he had the picture, and the police considered it evidence against the prisoner.

Duncan employed former Senator Rellins as his counsel. The latter began an investigation and was informed that Wilhim. Duncan denies the charge, and a

lins as his counsel. The latter began an investigation and was informed that William Favereau and his wife, living at No. 3539 Olive street, had seen a private watchman beating Chiron, who had fallen assession the sidewalk.

Sergeant Dowd took Private Watchman Mohr before Favereau, who said that he was not the man who beat Chiron. Favereau told the police that the man whom he saw beating Chiron were a slouch hat. The police know that Mohr wore his helmet on the night the assault was committed. Favereau declares, however, that it was not Duncan whom he saw attack Chiron, and on this testimony Duncan probably will be released.

PHILIPPINE EXHIBITS HELD.

Treasury Department Will Not State Why Order Is Made

REPUBLIC SPECIAL. Washington, Sept. 14.-The War Depart ment has ordered that the 4,000 tons of Philippine exhibits and eleven Filipino carpentars which have arrived at Seattle. be detained there and 300 tons of the exhibits, just arrived at New York, be held at that port.

This order was issued at the request of Colonel Edwards of the Insular Bureau of the War Department, who declines to state why it was done, but said that the question raised is of so much importance that it might result in the entire shipments being returned to Manfla.

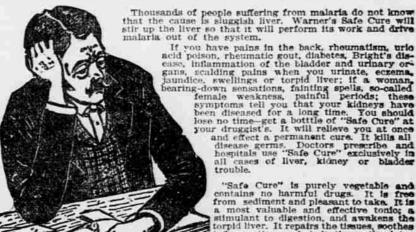

It is probable, however, that the matter will be adjusted. The Colonel added that he could not discuss the matter at present and that efforts are being made to straighten it out, but that the goods must be held for entry at the two ports named.
